

Protect video server systems from surges and power outages

The lithium battery BCD-WM-UPS Series provides the benefits of lithium technology in a slim 1.2" form factor UPS. Integral mounting brackets and easy access receptacles make this ideal for providing continuous power and protection to any video server where a conventional UPS may not fit.

The lithium battery technology allows the BCD-WM-UPS Series to operate continuously at up to 104°F (40°C) without a reduction in battery life.
