

Professional Grade 8 Bay Tower Video Appliance Integrated with Milestone XProtect + Software

Accelerate video application performance while providing room for future growth with the latest Intel® processors, DDR4 memory and PCIe Gen3 I/O. Manufactured for mission-critical Milestone XProtect video surveillance applications and fully customizable for individual project requirements. This appliance allows the use of SSD and SATA drive technology offering up to 60TB raw video storage. With redundant power, and RAID storage options, the BCDT08-MVRP delivers the performance, affordability, and reliability that will keep your Milestone project running smoothly day in and day out.

- Ensure fast response times with the latest quad core Intel® Xeon® E3-1200 v6 product family.
- Discover greater versatility with enhance storage options two SSD drives to accelerate system boot/reboot time.
- Supports fast spinning SAS dual port hard drives for live video database
- Lifetime technical support and a 5-Year, full system, next business day warranty.
- Protect your data integrity and mitigate risk and liability with the standard Keep Your Hard Drive warranty feature.
